

Frontend Software Developer (m/f/d)

Part- or full-time (20 – 40 hours), Aachen

We are looking for a part-time or full-time Frontend Software Developer to join our young, dynamic team.

ABOUT US

MANSIO has set itself the task of leading logistics into the future thus making freight transport faster, more efficient, safer, and more ecological thus creating more attractive working conditions. On that we are working on in our growing team of logisticians, computer scientists, engineers, and businesspeople, which we would like to strengthen with you.

WHAT THERE IS TO DO:

- You design and develop dynamic applications and user interfaces
- You coordinate and develop technical interfaces between internal and external stakeholders
- You contribute to the design of user interfaces and interactions
- In close cooperation with back-end developers, you will ensure the proper functioning of the components

WHAT WE ARE LOOKING FOR:

- You are proficient in the programming language JavaScript (Vue.js)
- Experience with JavaScript, HTML, CSS, GraphQL and Agile methodologies are an advantage
- Ideally, you have already gained 3-5 years of experience
- A completed apprenticeship and/or degree in the IT field
- You find it easy to work in a team and independently
- You have a good command of written and spoken German and English

WHAT YOU CAN LOOK FORWARD TO

- The chance to change the industry with your own ideas and solutions
- Complete IT equipment
- Further training opportunities according to your wishes and needs
- A young, motivated team, which consists not only of work colleagues but also of friends
- Regular team-building events

THAT SOUNDS GOOD?

Then join us, we would love to have you and your ideas become a part of our success. Just send us your CV or LinkedIn profile and a short cover letter to jobs@mansio-logistics.com so that we can get to know you.

We look forward to meeting you!
